A True Tall Tale – p. 1/5

## Technical Rider A True Tall Tale

### About the performance:

The performance is special, as the audience attends the show lying in hammocks. The set-design is a circle-construction with 72 hammocks. Above these is tensioned a ceiling made of downwind sail-cloth – like a big umbrella.

Duration:	50 minutes
Load in/setup:	appr. 4 hours
Rehearsals:	appr. 2 hours
Break down:	appr. 2 hours

In case of two consecutive performances, we prefer only 1 ½ hours between show-start. F.ex. at 10:00 and 11:30.

### Audience:

- **Maximum 72 persons.** By agreement, we can bring 10 beach-chairs, which can be placed between the hammocks if the conditions allow it. These extra-seats/tickets can not be sold to full price.
- Audience has no admission to the venue before the performance starts.
- During the performance smoking and partake of candy, chips etc. is not allowed.
- Cell-phones must be turned off during the performance.
- **Age limit:** min. 8 years
- A mixed audience of children and adults is preferable

*Children younger than the age limit have no admission and must be refused!!*

**Any and all cost associated with complying the requirements in this technical rider will be at the organizers sole expense.**

**Venue:**

A total blackout is required – like in a cinema.

Playing-area (the area includes the audience)

- minimum width: 13 meters.
- minimum depth: 15 meters.
- minimum high in all area: 4,5 meters.
- We perform at ground level. The performance can not be placed on a stage.
- No seats – seating is a part of the set-design
- In the center of the playing-area there must be a fixed point (a hook, a grid or a truss-system) in the hight of at least 4,5 meters, where the sail-cloth can be hooked up. The weight-load is 30 kg.

**Technical equipment:**

- Gruppe 38 brings all technical equipment as: light- and sound- equipment plus set. In connection with performances overseas there can be made special agreements.

**Power-supply:**

- 380-415V, min. 32 A, 3 phases + 0 with CEE-plug is required.

**Staff:**

We need assistance for:

- loading in setup. (Depends on conditions of the approach to the venue.)
- building up the set-design
- connecting power.

**Others:**

- A candlelight is lit in the beginning of the performance. It is carried around by an actor and it is lit for about 5 minutes. The organizer must take care of any permission if needed.
- There will be used special effect haze/smoke.

**For questions concerning technical matters contact:**

Søren Søndberg
